1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

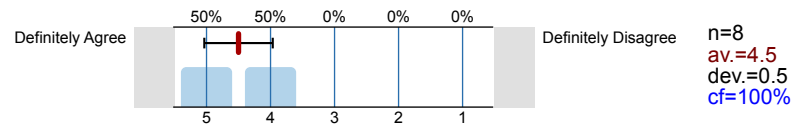

- Everything. He is absolutely phenomenal and incredibly down-to-earth with his students. Best seminar teacher I've ever had.
- He is very knowledgeable
- His class slides are very well-structured and clear, giving us clear explanations and valuable study resources. He also used class forums to help us engage with the material. He is very patient.
- In classes, made sure all concepts are covered and explained thoroughly. Class environment was good too and teacher was engaging.  
Easy to prepare for class with the weekly questions.
- The turnaround time between submitting our formative essays and receiving feedback was particularly useful, as it allowed me to digest the feedback I received before moving to work on the summative essay. I also preferred this term's system of class forums, as I think it helped prepare me for classes and allowed me to think critically about some of the readings.

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- He could convey his ideas more passionately
- I think it might be useful to use more group activities - sometimes class discussions felt bare as I feel people were reluctant to speak out in front of the class, so doing activities in smaller groups might help to stimulate discussion. It might also have been useful to do more work on essay writing (particularly in an exam context), and having discussions on the readings.

- It would be better if classes could start at 09:05 rather than 09:10 to have more time to discuss materials.
- Sometimes went a little too long on explaining things covered in the lecture, but generally covered all aspects of the weekly topic.

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
